I understand that my test may be sent out to a lab randomly or selectively for confirmation and analysis. ## **MARR Policy Guidance – Employment of Residents**

This policy guidance covers the NARR Version 3.0 Standard Principle A

– Standard 2G

– Policy surrounding the conditions around employing or entering into a paid work agreement with residents.

Policy:

It is the policy of Fresh Start to ensure the following conditions are met if the residence provider employs, contracts with or enters into a paid work agreement with residents:

- Paid work arrangements are completely voluntary.
- Residents do not suffer consequences for declining work.
- Residents who accept paid work are not treated more favorably than residents who do not.
- All qualified residents are given equal opportunity for available work.
- Paid work for the operator or staff does not impair participating residents' progress towards their recovery goals.
- Paid work is treated the same as any other employment situation.
- Wages are commensurate with marketplace value and at least minimum wage.
- The arrangements are viewed by a majority of the residents as fair.
- Paid work does not confer special privileges on residents doing the work.
- Work relationships do not negatively affect the recovery environment or morale of the home.
- Unsatisfactory work relationships are terminated without recrimination that can impair recovery.

## LD 597

**Today (9/19/2023) LD 597 becomes law** and MARR members may take full advantage of the law.

### **What does the law do?**

LD 597 permits operators to circumvent the usual eviction process if certain requirements are met.

### **How does it work?**

LD 597 allows MARR-certified recovery residence operators to adhere to a strict set of standards to utilize the permitted actions for referring residents who demonstrate protracted resistance to recovery work and become a danger to fellow residents. In other words, an operator can refer/transfer/discharge a resident without going through the usual lengthy eviction process.

The language of the bill includes, *"...A MARR-certified recovery residence with a discharge and transfer policy approved under this section may discharge or transfer a resident in accordance with that policy if the discharge or transfer is necessary for the resident's welfare, the resident's needs cannot be met at the recovery residence or the health and safety of other residents or recovery residence employees are at risk or would be at risk if the resident continues to live at the recovery residence."*

### **When would the law apply?**

MARR operators have seen situations where a resident experiences recurrence and refuses to accept a referral for a higher and needed level of care. In these rare instances, they may continue to drink, use, or inject in their rooms in the presence of a roommate who is desperately trying to remain sober. House managers and operators may be powerless to convince the person in active disease to accept a referral. This situation can and has continued for weeks and months as the operators moves through the legally permitted removal process.

While the legal case is moving through the system, the person continues to be a danger to themselves and others. The Social Model of recovery, so vital to the success of all the residents are weakened. It takes weeks after the situation is resolved to return balance and a healthy recovery environment to an affected recovery home.

## Fresh Start Inc. Referral/Transfer/Discharge Policy

By signing our Membership Agreement and acknowledging receipt of our Members Handbook all members agree to abide by our MARR approved Referral/Discharge/Transfer policy outlined on this page.

Members who produce a positive UA for any substance that they do not have a current valid prescription for are in violation of our rental agreement and subject to discharge, transfer, or referral. If a positive UA occurs, a secondary screening option will be provided (usually by a provider within 4 hours) at the members cost. Other serious violations including but not limited to violence, threats of violence, theft, or other criminal conduct will likely result in discharge or transfer. How these situations are handled is at the administrative staff's discretion.

Fresh Start staff will make all reasonable efforts to retain a member when it is safe to do so if the member is honest and cooperative. These efforts will include initiating a behavioral contract when appropriate, transporting the member to a local hospital, clinic, or detox for medical clearance, suspending the members housing, or creating a safety plan for the member.

Fresh Start will assist members who relapse in finding a safe place to go during any suspension of housing (usually 3-5 days) to allow for the member to return with negative UA results.

Members who refuse to cooperate with a referral or transfer plan or refuse to agree to and sign a behavioral contract will be given no more than 24 hours to reconsider. A member who appears to be intoxicated or becomes disruptive or aggressive will be asked to leave the property **immediately**. If a member is asked to leave the property, they may not return without the permission of a staff member.

All behavioral contracts/exhaustive efforts made by Fresh Start will be documented and stored for a period no less than 2 years.

Once a referral has been made, the individual's emergency contact will be notified.

MARR will be notified before LD597 is enacted.

## Nondiscriminatory Statement

Fresh Start Sober Living is committed to providing equal access and nondiscriminatory services to all individuals. We adhere to state and federal laws that prohibit discrimination based on race, color, national origin, religion, sex, disability, or familial status. Our facilities are open to everyone seeking recovery, and we strive to create an inclusive and supportive environment for all residents.

## ADDRESSING NEIGHBOR CONCERNS POLICY

It is crucial to the long-term success of any person in recovering to adopt new skills when dealing with difficult people, especially those who may not understand recovery. One of the most important parts of being in our recovery homes, is adopting certain pro-neighbor attitudes and behaviors – along the lines of, “love thy neighbor as thyself.” even if those same behaviors and attitudes are not returned. New Foundations takes our Good Neighbor Policy profoundly serious in part to combat NIMBY (not in my back yard). We can show our neighbors that we are assets to the community. We are not “drug houses” or “trap houses”, but rather look at us as good neighbors, and contributing members to society.

Below, lists the code of conduct you agree BEFORE moving forward in our program. If this is not something you're comfortable with, please let us know.

You represent yourself in such a manner of excellence and humility. Be proud where you are, but humble in your attitude toward others. Not everyone appreciates the steps you've taken or obstacles you've overcome to get here.

You represent Fresh Start Sober Living. Even though you will successfully transition on, we plan to be here to continue our mission, for generations. Think and act beyond yourself.

You represent people in recovery everywhere. The stigma of addiction remains, despite decades of public education. Although community members support your recovery, people still struggle with a sober living facility being in their neighborhood.

Demonstrate the strength and character it takes to change for the better. Our goal is to show, through our actions, we are good people with a bad illness, and that we deserve a chance, not judgement.

Do not travel in groups larger than 3-4 people while walking locally.

Be aware of the space you take up, give up space to others on the sidewalk, hallways, etc.

Volunteer to be of help in any way you can. Look for ways to chip in, whether at home or out in public.

Keep your voices lowered and be aware of subject matter. This is just as important on the deck and smoking area, which should NOT be in the front of the home.

At meetings –silence phones, pay attention, learn from the people who have long-term sobriety.

Use “Please” and “Thank you”. Listen.

If a neighbor confronts you, please do not engage or give them a reason to call the police. You are to contact Fresh Start Admins at 207-481-8201. Do not engage or get into an argument.
